

BOM Compare

Save time for engineers by eliminating the tedious manual comparing of CAD/CAM BOMs against Global Shop Solutions BOMs.

- Side-by-side comparison of CAD BOM & ERP BOM during design process
- Standardize data from CAD/CAM to Global Shop Solutions
- Compare BOMs between drawing & ERP BOM
- Inventory master part review & creation
- Color-coded system to easily identify differences
- Export BOM changes
- Customizable options
- Drag & drop file options supporting multiple options
- Notify team members when changes are made
- Automatically-generated BOM back-ups
- Tree outline to show part hierarchy
- Integrates with SOLIDWORKS, Solid Edge, Autodesk Inventor & more

BENEFITS

- Expedite time from design to production
- Simplify design process
- Quickly identify BOM discrepancies
- Eliminate manual BOM comparisons
- Save time & costs
