

Process Documentation & Training (PDT)

PDT allows you to record and document your ERP software processes for auditing, certification and training.

- Record screen captures of any ERP task
- One-click start to record or access library
- Add detailed descriptions to any step
- Multiple training documents allowed per task
- In-menu training
- Automatic notification of changes with new releases
- Standardized SOPs to assist with ISO certifications
- Quickly update documentation
- Access quality documentation with a click of the button
- Launch by right-clicking menu item

BENEFITS

- Easy, simple process tracking in a fraction of the time
- Elimination of paper procedure binders
- Improved new & continuing employee training
